

**Swift Beauty - Masterclass**  
**October 26-27, 2024**  
**New York, NY**

---

### **Activity Overview**

This course will showcase novelty injection techniques, tips and tricks to optimize the patient's experience and outcome. The agenda will feature full face coverage for both neuromodulator and filler, while identifying safer zones and the rationale for treatment with cannulas, needles or both. Faculty will cover facial anatomy as it relates to safe and effective aesthetic procedures.

### **Target Audience**

This activity is designed for an audience of physicians, physician associates, nurse practitioners, nurses, dentists, and other healthcare professionals.

### **Learning Objectives**

Upon completion of the educational activity, participants should be able to:

- Define and identify a systematic approach to full face assessment.
- Explain toxin and filler science and its relevance to optimizing patient results.
- Illustrate detailed facial anatomy as it relates to safe and effective aesthetic procedures.
- Identify tips and tricks to optimize the patient's injection experience through minor discomfort and minimal bruising.
- Demonstrate full face neuromodulator coverage including glabella, forehead, crow's feet, bunny line s, eyelid aperture, mentalis, DAOs, upper and lower lip line and masseters.
- Demonstrate syringe and cannula aseptic filler technique for full face (forehead, temple, midface, periorbital, lips, nose, and jawline).
- Define and assess methods to minimize the risk of disastrous complication.
- Evaluate field-tested reliable protocols for treatment of filler and toxin complications.
- Compare and contrast aesthetic goals and treatment planning to enhance feminization or masculinization of the facial appearance.

### **Criteria for Success**

A certificate of completion will be awarded based on the participant's attendance. A certificate of completion will be available upon completion of an online evaluation/claim credit form.
