

A MASTERCLASS ON ADVANCED INJECTION THERAPY

Course Director: Arthur Swift, MD, FRCS

Expert Guest Faculty: Sebastian Cotofana, MD, PhD, PhD

The Ritz-Carlton Coconut Grove Hotel

3300 SW 27th Ave, Miami, FL 33133

This activity is jointly provided by Medical Education Resources and Swift Beauty. This activity is supported by an in-kind product grant from TBC.

Target Audience

This activity has been designed to meet the educational needs of aesthetic healthcare practitioners; dermatologists, plastic surgeons, registered nurses and nurse practitioners specializing in non-surgical cosmetic procedures.

Statement of Need/Program Overview

Combining their expertise in medical education, injection therapy and facial anatomy, Dr. Arthur Swift and Professor Sebastian Cotofana have carefully crafted a select training curriculum geared towards proficiency in safe, effective and affordable facial injectable treatments. February's agenda covers traditional and advanced injection skills for neuromodulator and filler, while identifying safe injection zones and the rationale for treatment with cannulas, needles or both.

The goal of this CME-certified workshop is to look more closely at the array of dermal fillers and share tips and techniques from Dr. Swift as to what product he uses, where and why. Faculty will demonstrate an aesthetic analysis on their patient and present their treatment recommendations. There will be a focus on how to avoid complications and should they occur, proper treatment options.

Educational Objectives

After completing this activity, the participant should be better able to:

- Define and identify a comprehensive systematic approach to full face assessment and treatment with syringe therapy
- Explain toxin and filler science and its relevance to optimizing patient results
- Illustrate detailed facial injection anatomy as it applies to topographical delineation of "S.A.F.E.R.™" injection zones
- Identify tips and tricks to optimize the patient's injection experience through minor discomfort and minimal bruising
- Demonstrate full face neuromodulator coverage including glabella, forehead, crow's feet, bunny lines, eyelid aperture, mentalis, DAOs, upper and lower lip line, masseters, parotid, submandibular glands, platysma and Nefertiti.
- Demonstrate syringe and cannula aseptic filler technique for forehead/temple contouring, infra-brow A-frame correction, eyebrow lift, lateral canthus reshaping, nasal enhancement (form and function), cheek augmentation, lip augmentation/enhancement, chin zone reflation, earlobe restructuring, pre- and post-jowl treatment, radial cheek line and

nasolabial fold softening, pyriform structuring, jawline/ lower face contouring and novel combination treatment for barcode/necklines/crow’s feet.

- Define and assess methods to minimize the risk of disastrous complication
- Evaluate field-tested reliable protocols for treatment of filler and toxin complications
- Compare and contrast injection techniques to enhance feminization or masculinization of the facial appearance

Faculty

Course Director: Arthur Swift, MD, FRCS, Private Practice, Montreal, Canada

Expert Guest Faculty:

Sebastian Cotofana, MD, PhD, PhD, Mayo Clinic, Rochester, MN

Program Agenda

Accreditation Statement

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION

In support of improving patient care, this activity has been planned and implemented by Medical Education Resources (MER) and Swift Beauty. MER is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team

Physician Credit

Medical Education Resources designates this live activity for a maximum of 20 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest

It is the policy of Medical Education Resources to ensure balance, independence, objectivity, and scientific rigor in all of its educational activities. In accordance with this policy, MER identifies conflicts of interest with its instructors, content managers, and other individuals who are in a position to control the content of an activity. Conflicts are resolved by MER to ensure that all scientific research referred to, reported, or used in a continuing education activity conforms to the generally accepted standards of experimental design, data collection, and analysis.

The **faculty** reported the following financial relationships with commercial interests whose products or services may be mentioned in this activity:

<i>Name of Faculty</i>	<i>Reported Financial Relationship</i>
-------------------------------	---

<p>Arthur Swift, MD, FRCS, Program Chair</p>	<p>Dr. Swift discloses that he is a Speaker for Allergan, Galderma, Merz, Revance and Prolenium Medical Technologies; and that he receives honorarium for these services. He has also received remuneration for consulting services for Galderma, Merz and Revance.</p>
<p>Sebastian Cotofana, MD, PhD, PhD</p>	<p>Professor Cotofana discloses that he is a speaker for Allergan, Galderma, Evolus, and Merz. He has also received remuneration for consulting services for Evolus, Galderma, Merz and Allergan.</p>

The **content managers** reported the following financial relationships with commercial interests whose products or services may be mentioned in this activity:

Name of Content Manager	Reported Financial Relationship
Swift Beauty	Swift Beauty has consulted for Merz Pharmaceutical in the last 12 months and has received remuneration for such services.
MER content managers	No financial relationships to disclose.
